

Hey everyone, quick pause on the 2024 to tip our hats to 2023 at BG Reklam. Reflecting now, a bit off the usual schedule, actually gives us a fresh perspective on what a stellar year it was.

Last year? It was all about stepping up our game, smashing through challenges, and really pulling together as a team. From supporting Google launch their shops across Europe to changing the retail landscape across Germany and the DACH region, we've had our hands full. And, oh, we picked up a few awards from POPAI on the way, which was pretty cool.

It wasn't just about the individual wins but how we moved the needle together, setting new benchmarks along the way. From team meet-ups to hitting our goals, 2023 was packed with moments that reminded us why we do what we do. And now, cruising into 2024, we're bringing all that good energy and lessons learned with us.
